SUMMARY

Fresh Graduate with a Bachelor's degree in Informatics Engineering and internship experience as a Web Developer at Diskominfo Kota Tanjungpinang. Experienced in system development through research projects and thesis project, with skills in front-end, back-end, databases, and REST APIs. Adaptable and highly motivated to learn and grow in a professional work environment.

EXPERIENCE

Dinas Komunikasi dan Informatika Kota Tanjungpinang | Tanjungpinang, Indonesia

Web Developer (Jul 2025 - Sep 2025)

- Redesigned the Kelurahan Tanjungpinang Kota website with a modern interface using Figma and Vue.js.
- Designed and developed the Survei Kepuasan Masyarakat Tanjungpinang Kota website using Figma, Vue.js, and Laravel.

Raja Ali Haji Maritime University | Tanjungpinang, Indonesia

Research Team (Jul 2024 - Nov 2024)

- Collected species-specific mangrove datasets to train an AI model.
- Contributed to the design and development of an AI-based mobile app for mangrove species detection, editing and publishing research documentation videos.

Practice Assistant Database System (Mar 2024 - Juni 2024)

- Taught basic database systems concepts to university students throughout one semester.
- Assisted students with practical sessions and supervised the final competency assessment.
